

WORLD WAR II

INTRODUCTION

World War II was an ongoing war between Nazi Germany and the Allies. It lasted from 1st September 1939 to 2nd September 1945. This deadly battle occurred after Nazi Germany invaded Poland.

THE JEWS

One horrific event that occurred during World War II was the 'Holocaust'. This happened because some people were 'unimportant' or if they were Jewish. These Jews were sent to concentration camps which is where they would torture them. Unfortunately, many were killed in gas chambers with no clothes on. They would shave all their hair off on their heads to make them colder.

THE ALLIES

The Allies, also known as the United Nations, were the countries that fought against Hitler and his army. The allies were made up of: United Kingdom, America and the Soviet Union. Shortly after, France, Belgium, Australia, New Zealand, Canada and South Africa joined them. America provided most of the money needed to create weapons, planes and bombs- as the cost of the war was extremely high and America were successful financially.

The war was started when the Nazis invaded Poland, and any other surrounding country, but the allies didn't agree- so they started a war to do what was right.

World War II had begun just 25 years after World War I. Unfortunately, Hitler and the Nazis were the cause of both. Although, World War I consisted of more contact, World War II had more bombs.
