

ALBRECHT DÜRER : A FAMOUS ARTIST

WHO WAS ALBRECHT DÜRER?

Albrecht Dürer was a very famous artist who lived a long time ago, over 500 years ago! He was born in a country called Germany in the year 1471. Albrecht was very good at drawing, painting, and making special pictures called engravings.

WHAT DID ALBRECHT DÜRER CREATE?

Dürer made many kinds of art. He painted pictures of people, animals, and nature. He also made engravings, which are pictures carved into metal or wood. One of his most famous engravings is called The Rhinoceros. It shows a rhino, even though Albrecht had never seen one in real life! He also painted beautiful self-portraits, which are pictures of himself.

WHY IS HE SPECIAL?

Albrecht Dürer was very good at showing tiny details in his art. His drawings of plants and animals are so detailed that they almost look real. He was one of the first artists to use perspective, a way of making pictures look 3D.

WHERE CAN YOU SEE HIS ART?

You can see Albrecht Dürer's art in museums all around the world. Many people still love his work because it is so amazing and carefully made.

FUN FACT ABOUT DÜRER

Albrecht Dürer loved learning. He even wrote books about how to draw and paint! He wanted to help other artists improve their skills too.

Albrecht Dürer is remembered as one of the greatest artists in history, and his work is still admired by people today.
