

# YEAR 1 NEIL ARMSTRONG

## WHO WAS NEIL ARMSTRONG?

Neil Armstrong was a brave astronaut. He was born on 5th August 1930 in a town called Wapakoneta in the United States. He loved flying from when he was a little boy. As he grew up, he became a pilot and later a space traveller!

## A JOURNEY TO SPACE

In 1969, Neil Armstrong did something very special. He went on a mission to the Moon. He travelled in a spaceship called Apollo 11. Neil was not alone; he had two other astronauts with him: Buzz Aldrin and Michael Collins.

## STEPPING ON THE MOON

On 20th July 1969, Neil Armstrong became the first person to step onto the Moon. He said, "That is one small step for man, one giant leap for mankind." This meant that going to the Moon was a big achievement for all people around the world.

## WHAT DID NEIL DO ON THE MOON?

When Neil was on the Moon, he walked around, took pictures, and collected rocks. He spent about two hours walking on the Moon's surface. The Moon was very different from Earth. There was no air to breathe, and it was covered in dust.

## WHAT HAPPENED AFTER THE MOON?

After returning from the Moon, Neil Armstrong became very famous. He was a hero to many people. However, he stayed humble and quietly continued his life. He helped teach others about space and science. He also became a university professor.

## NEIL ARMSTRONG'S LEGACY

Neil Armstrong showed us that anything is possible if you dream big and work hard. He will always be remembered for being the first person to walk on the Moon. His journey inspired many people to reach for the stars!
